Weather Research Center and The University of St. Thomas Present:

**Global Climate Change:
In Search of the Science**

Whether or not humans contribute to climate change, it is happening and there is nothing we can do to stop it. We can adapt. We can prepare. We can be safe.

Curious as to what the effects of climate change are?
What is the science really telling us?
What can we do to mitigate the effects of change?

Come to the presentation of
Global Climate Change: In Search of the Science,
On April 21, 2009. This event is free to all.
Space is limited so register soon.
